IDENTITY

OUR MISSION

Our mission is to promote personal growth through education, especially in people's free time, and to carry out social actions based on the values of Christian humanism.

OUR VISION

- » We aim to have a meaningful and transformative presence in society, especially in the areas of direct social and educational action, through collaboration with related organisations, by offering training, and by sharing knowledge and reflections.
- » We hope to become an autonomous, efficient organisation with Christian roots that creates social value and improvements for children and other groups with social needs, while offering support to non-profit organisations in general.
- » Our goal to universalise. We are aiming for significant growth in terms of the scale and impact of our actions and reflections, both in Catalonia, Spain, and further afield in Latin America over the coming years.

OUR VALUES

The actions of the people who make up the Pere Tarrés Foundation are rooted in the values of Christian humanism. We are community- and people-focused, and our actions come from a place of love for others, shared brotherhood and sisterhood, the search for justice and ethics, providing for those most in need, inner guidance and spirituality, and ultimately working towards peace and truth.

All our actions are guided by these values
